

PRODUCT TECHNICAL DATA SHEET

Commercial Name: CP-F001

Chemical Name: 6-ethoxy-2,2,4-trimethyl-1,2-dihydroquinoline

CAS No.: 91-53-2

Molecular Formula: C₁₄H₁₉NO

Specification:

Item	Standard
Appearance	Yellow to brown, free-flowing liquid
Ethoxyquin Content(%)	≥95
Heavy Metals(Pb) (mg/kg)	≤10.0
Arsenide (As) (mg/kg)	≤2.0
Residue(%)	≤0.2

Application & Performance:

- Preventing fats and oil in feed from rancidity, keeping their energy and nutrition.
- Protecting fat soluble Vitamins such as VA , VE and natural carotene in feed.
- Preventing xanthophylls and other pigments from destruction.
- Prolonging storage time of feed and raw materials for feed.

Packing: 200kg/iron drum

Storage:

Cool & dry place with good ventilation.
